

Report on Orientation Program – 2022

ATME College of Engineering had organized orientation program 2022 on 1st December for all the new students of 2022-23 batch. Along with the students of the academic year 2022-23, parents were also invited for the program.

The main aim of the program is to bring awareness among parents and students about the college campus, College rules and regulations and VTU rules and regulations.

Chief Guest of the program was Dr. S R Niranjana who is former vice-chancellor of Gulbarga University and Distinguished Professor in Department of Studies in Biotechnology, University of Mysore.

Guest of Honor of the program are

1. Mr. Vinayak Hegde, Vice President & Global Delivery Head in Process Automation & Digital Supply, Infosys Limited.
2. Dr. Syed Shakeeb Ur Rahman, Executive Council Member, VTU, Belagavi

The program presided by

1. Sri. K Shivashankar, Honorable Secretary, ATMECE, Mysuru
2. Sri. R Veeresh, Honorable Treasurer, ATMECE, Mysuru
3. Dr. Basavaraj L, Principal, ATMECE, Mysuru.

The dignitaries addressed the gathering, and the students were enriched with the information about their career and opportunities that ATME provides them. In the same occasion Dr. M S Govinde Gowda gave brief information about rules and regulation of VTU and new scheme to students and parents.

The program was organized by Dr. Yathisha L who is Dean (Student Affairs), ATMECE, Mysuru along with all other coordinators. The program was successful as parents and students got most of the information from the dignitaries.

The orientation program witnessed about 1300 people (both students and their parents) and lunch was arranged for the stake holders.

Photo Gallery of the Orientation Program – 2022

Orientation Programme - 2022
on 1st December 2022 Thursday at 10.00 AM

Chief Guest
Dr. S. R. Niranjana
Former Vice-Chancellor, Gulbarga University, Karnataka
Distinguished Professor (UPE-LONG), Department of Studies in Biotechnology
University of Mysore, Manasagangothri, Mysore - 570 006, Karnataka, India

Guests of Honour
Mr. Vinayak Hegde Vice President & Global Delivery Head, Process Automation & Digital Supply, Infosys Limited
Dr. Syed Shakeeb Ur Rahman Executive Council Member, VTU, Belagavi

Presided by
Sri K. Shivashankar Hon'ble Secretary, ATMECE, Mysuru
Sri R. Veeresh Hon'ble Treasurer, ATMECE, Mysuru
Dr. Basavaraj L Principal, ATMECE, Mysuru

Organising Chair
Dr. Yathisha L Dean(Student affairs), ATMECE, Mysuru

The program concluded with the information that all the students are supposed to attend the Student Induction program that is been organized from 02-12-2022 to 09-12-2022. The planned timetable of the same is attached below.

VTU Guidelines for Induction Program

Sl. No	Activities	Covered/Not Covered
1	Familiarization to Department/ Branch and Innovations	Covered
2	Physical Activity	Covered
3	Creative Arts	Covered
4	Universal Human Values	Covered
5	Literacy Activities	Moderately Covered
6	Proficiency Modules	Moderately Covered
7	Lecture by Eminent People	Covered
8	Academic Matters	Covered
9	Non-Academic Matters	Covered

AICTE Guidelines for Induction Program

Sl. No	Activities	Covered/Not Covered
1	Physical Activities	Covered
2	Creative Arts and Culture	Covered
3	Mentoring & Universal Human Values	Covered
4	Familiarization With College, Department/ Branch	Covered
5	Literacy Activities	Moderately Covered
6	Proficiency Modules	Moderately Covered
7	Lectures & Workshops by Eminent People	Covered
8	Visits to Local Area	Covered
9	Extra-Curricular Activities in College	Covered

Brief Timetable of First Year Student Induction Program for the Academic Year 2022-23

DATE	SESSIONS	TIMINGS	CATEGORY (AICTE & VTU)	TOPIC	SPEAKER	VENUE
Day 1 02-12-2022	1	09.30 am to 11.00 am	VTU - 8	Awareness on VTU Rules & Regulations & OBE	Dr. Govinde Gowda M S (Dean Academics) -Internal	College Auditorium
	2	11.30 am to 01.00 pm	VTU - 8 AICTE - 4	Orientation on Basic Science Departments	1. Dr. Kiran Kumar P (Asst. Prof. – Chemistry Dept.) 2. Dr. Mahesh Lohith K S (HoD. – Physics Dept.) 3. Mr. Sudhakar N (HoD. – Mathematics Dept.) -Internal	College Auditorium
	3	02.00 pm to 04.00 pm	VTU – 1 AICTE - 4	Campus Tour	-----	College Campus
Day 2 03-12-2022	1	09.30 am to 10.30 am	VTU - 8 AICTE - 4	Orientation on Electrical Engineering Science Stream (EEE)	1. Mrs. Sowmyashree K S (Asst. Prof. – EEE Dept.) 2. Dr. Sathish K R (Asst. Prof. – EEE Dept.) -Internal	College Auditorium
	2	11.00 am to 12.30 pm	VTU - 4 AICTE - 3	UHV Session (C Cycle)	UHV Trained Faculties -Internal	1. ME Seminar Hall 2. CV Seminar Hall 3. EEE Seminar Hall 4. 401 Admin Block

			VTU - 8	Bridge Course- Mathematics (P Cycle)	Mathematics Department Faculties -Internal	CV Classrooms
	3	01.30 pm to 02.15 pm	VTU – 8 & 6 AICTE - 6	Orientation on Humanities & English Proficiency (P Cycle)	Prof. Bharathi R (Lecturer) -Internal	401
		02.30 pm to 04.00 pm	VTU – 1 & 5 AICTE – 4 & 5	Awareness on Library and Its Facilities (P Cycle)	Mrs. Priya R. (Librarian) -Internal	
		01.30 pm to 04.30 pm	AICTE - 8	Local Area Visit to Somanathpura Temple (C Cycle)		Outside the College Campus
Day 3 05-12-2022	1	09.30 am to 10.30 am	VTU - 8 AICTE - 4	Orientation on Computer Science Engineering Stream	Dr. J V Gorabal (Professor – CSE Dept.) -Internal	College Auditorium
	2	10.45 am to 11.30 am	VTU – 8 & 6 AICTE - 6	Orientation on Humanities & English Proficiency (C Cycle)	Prof. Bharathi R (Lecturer) -Internal	401
		11.30 am to 12.45 pm	VTU – 1 & 5 AICTE – 4 & 5	Awareness on Library and Its Facilities (C Cycle)	Mrs. Priya R. (Librarian) -Internal	
		10.45 am to 12.45 am	AICTE - 8	Local Area Visit to Somanathpura Temple (P Cycle)		Outside the College Campus

	3	01.30 pm to 04.00 pm	VTU - 4 AICTE - 3	UHV Session (P Cycle)	UHV Trained Faculties -Internal	1. ME Seminar Hall 2. CV Seminar Hall 3. EEE Seminar Hall 4. 401 Admin Block
			VTU - 8	Bridge Course- Mathematics (C Cycle)	Mathematics Department Faculties -Internal	CV Classrooms
Day 4 06-12-2022	1	09.30 am to 10.30 am	VTU - 8 AICTE - 4	Orientation on Mechanical Engineering Stream	Dr. Srinivasa K (HoD -Mechanical Dept.) Dr. Mohanakumara K C (Asst. Prof. -Mechanical Dept.) -Internal	College Auditorium
	2	11.00 am to 12.30 pm	VTU - 8	Bridge Course- Mathematics (C Cycle)	Mathematics Department Faculties -Internal	CV Classrooms
			VTU - 2 AICTE - 1	Yoga Session (P Cycle)	Team from Sri Patanjali Yoga Shikshana Samiti -External	CV Auditorium
	3	01.30 pm to 04.30 pm	VTU - 2 AICTE - 1	Sports	Basketball Championship	Ground
Day 5 07-12-2022	1	09.30 am to 10.30 am	VTU - 8 AICTE - 4	Orientation on Civil Engineering Stream	Prof. Manu Vijay (HoD - CV Dept.) -Internal	College Auditorium
	2	11.00 am to 12.30 pm	VTU - 2 AICTE - 1	Yoga Session (C Cycle)	Team from Sri Patanjali Yoga Shikshana Samiti -External	CV Auditorium
			VTU - 4 AICTE - 3	UHV Session (P Cycle)	UHV Trained Faculties -Internal	1. ME Seminar Hall 2. CV Seminar Hall 3. EEE Seminar Hall 4. 401 Admin Block

	3	01.30 pm to 03.00 pm	VTU – 1, 7 & 9 AICTE - 4	Session from Career Guidance and Placement Cell	Dr. Deepu R (Head – CGP Cell) -Internal	College Auditorium
		03.00 pm to 04.00 pm	VTU – 1, 7 & 9 AICTE - 4	Awareness on A-IMS	Mr. Kiran B (A-IMS Coordinator & Asst. Prof – CSE) -Internal	College Auditorium
Day 6 08-12-2022	1	09.30 am to 10.30 am	VTU - 8 AICTE - 4	Orientation on Electrical Engineering Science Stream (ECE)	HoD (ECE Dept.) Mr. Girish M (Asst. Prof. - ECE Dept.) Mrs. Shalini Hanok (Asst. Prof. - ECE Dept.) -Internal	College Auditorium
	2	11.00 am to 12.30 pm	VTU - 4 AICTE - 3	UHV Session (C Cycle)	UHV Trained Faculties -Internal	1. ME Seminar Hall 2. CV Seminar Hall 3. EEE Seminar Hall 4. 401 Admin Block
			VTU - 8	Bridge Course- Mathematics (P Cycle)	Mathematics Department Faculties -Internal	CV Classrooms
	3	01.30 pm to 02.30 pm	VTU – 9 AICTE - 9	Awareness on Extensional Activity	1. Mr. Rudresh A N (Asst. Prof. – CV Dept.) 2. Mr. Hemanth B R (Asst. Prof. -ME Dept.) 3. Mr. Ravishankar H S (Asst. Prof. -CHE Dept.) -Internal	1. 401 2. ME Seminar Hall 3. CV Seminar Hall
	4	02.30pm to 04.30 pm	VTU – 7 AICTE - 7	Awareness on CICC	Organizing By Dean Research Office -External	401 / Auditorium

Day 7 09-12-2022	1	09.30 am to 11.00 am	VTU – 7 AICTE – 7	IBM Recruiters presentation on SkillHub	Anusha Tyagi (EduSat) -External	College Auditorium
	2	11.30 am to 12.30 pm	VTU - 8	Bridge Course- Mathematics (C- Cycle)	Mathematics Department Faculties -Internal	CV Classrooms
			VTU - 4 AICTE - 3	UHV Session (P Cycle)	UHV Trained Faculties -Internal	1. ME Seminar Hall 2. CV Seminar Hall 3. EEE Seminar Hall 4. 401 Admin Block
	3	01.30 pm to 02.30 pm	VTU – 7 AICTE – 3 & 7	Mental Health and Counseling	Mrs. Rakshitha Ravindranath -External	College Auditorium
		02.45 pm to 04.30 pm	VTU – 2 & 9 AICTE – 1 & 9	Cultural Program	-----	Civil Auditorium / College Auditorium

Note:

1. We have contacted some of the eminent persons to organize lectures on public life. It will be organized in between the classes individually for both the cycles.
2. Industrial Trip will be planned during any Saturday or Activity day for all the students before the end of the semester
3. As a part of new Scheme (2022 Scheme), Induction Program sessions are more focused on Academic Related information.
4. The Content which is not covered in this Induction program will be covered in later stages (Between 1st & 2nd Semester vacation).

Date	02-12-2022	Session	01
Session Topic	Awareness on VTU Rules & Regulations & OBE		
Resource Person	Dr. M S GOVINDE GOWDA. (Dean Academics)		

On the 2nd of December the session was organized for Dr. M S Govinde Gowda (Professor and Dean Academics) to brief about VTU rules and regulations to the first-year students. Mrs. Shruthi H G started the session by the introduction of the speaker.

Professor explained about OBE for the students that Visvesvaraya Technological University (VTU) has put in place rules and regulations to ensure that all students, faculties, staff and other personnel are aware of the expectations and requirements of the university. The VTU has implemented an Outcome Based Education (OBE) system for the betterment of its students. OBE is an approach to education that focuses on career-oriented skills and development. It is designed to prepare students for success in their chosen career paths by emphasizing learning outcomes rather than traditional teaching methods.

Dr. M S Govinde Gowda sir also briefed that the VTU has created a set of guidelines that must be followed by all members of the university community. These include attendance policies, disciplinary procedures, academic integrity policies, and so on. The VTU has rules for attendance, examination procedures, and discipline. Students must attend classes regularly and on time as per their course requirements. They must appear for exams and submit assignments as per schedule. They must also maintain a certain level of discipline while on campus.

Further, He elaborated on how many subjects are available for individual department and how to choose the subjects for the current academic year as it is a new Scheme i. e., 2022 Scheme. The students take up courses with a certain goal of developing skills or gaining knowledge and they must complete the goal by end of the course.

It is important for all members of the VTU community to be aware of these rules and regulations to maintain a conducive environment on campus. Violation of any rule may lead to disciplinary action as per university policy. Therefore, students should always make sure they understand the rules before engaging in any activity on campus. Session ended with thanking the resource person.

Date	02-12-2022	Session	02
Session Topic	Orientation on Basic Science Departments		
Resource Persons	1. Dr. Kiran Kumar P. (Asst. Prof. – Chemistry Dept.) 2. Dr. Mahesh Lohith K S. (HoD. – Physics Dept.) 3. Mr. Sudhakar N. (HoD. – Mathematics Dept.)		

Orientation for Basic Science Departments is an important part of the onboarding process for new students. The orientation provides a foundation of understanding about the department and the resources available to students. During orientation, students will learn about the department's policies and procedures, course selection, research opportunities, and more.

In this regard, speakers were requested to elaborate the necessary information required for the students in the Induction program. Dr. Mohamed Eliyas HoD of Chemistry department briefed about the department, staff and facilities.

Dr. Kiran Kumar P, Assistant Professor, Department of Chemistry started the session by explaining the students about how the course is for individual department. In the same forum he explained how new scheme (2022) is allotted for different departments according to requirements.

(Example: Chemistry for CV, Chemistry for CSE, Chemistry for EEE/ECE, Chemistry for ME).

Session continued with the introduction to next resource person Dr. Mahesh Lohith K S, HoD of Physics Department. He gave the information on about the department, staff, achievements and facilities. He explained the students about uses of studying Physics in the first year and how new scheme is helping different departments with different respective syllabus for the same.

After the end of the talk, the session was handed over to the next resource person Mr. Sudhakar N, HoD of Mathematics department. During the session, professor briefed about the department staff, the department's mission, expectations, and resources. He also gave an overview of how mathematics is useful in the applications of individual departments as the syllabus is different for all the branches of engineering.

The session ended with thanking to all the speakers.

It was good

No suggestions

It was nice

Excellently explained!

It was kinda good

Helpful 😊

No suggestions :)

Improve sound quality

nt satisfied with the mic quality

Speak more loudly while presenting

Nope

Best professor's out here , yet it would be more delighted if English is used more often

Not satisfied by some distrabence of Mic speakers

It's good

Proper english communication

Improve the portable mic range and equalising speakers loudness each and every side of auditorium

Excellent

It was good and helpfull

Tq

Ntng

No suggestion... Session was super

No suggestions

Good i got some place to speak up

Session 1-that guy was literally funny he just read the stuff on PPT nothing else and what we suppose to learn from that

Session 2-that sir was best he does explain stuff good funny which goes to your brain i loved it

It was Good

..

It was very useful

Good experience

Good expression

Helpful session

Superb

It's good 👍

Thank you

Nice session 😊

Session was good

None

The Session was fantastic

HAD A NICE EXPERIENCE

It was a good one:-)

It is very use full to us

Nice

Have more cultural programs and take us to another place rather than somanatpura

No suggestions everything was nice

Ntg

Make it little funnier

Average

Be little attentive

There's always room for improvement

It s good

Overall a good sessions

Some how I missed some programme but I knew something about science

—

It's pretty good

Superr

Presentation quality must be improved / making more modern presentations

Better

It's very useful

It was good session

Session Topic		College Campus Tour	

College campus tours provide an invaluable opportunity for prospective students to get a better sense of what a college has to offer. A college campus tour typically includes a walking tour of the campus, which allows students to see the different academic buildings, student housing, recreational facilities, and other important sites. The tour guide will also provide information about the college history, academic offerings, and extracurricular activities. In addition to the walking tour, our college also offered information sessions and Q&A sessions to provide more detailed information on the college and its programs. A college campus tour is an important step in deciding where one should attend regular classes, Labs and other facilities present in the campus. It's an opportunity for students to see what sets each college apart from the rest and make an informed decision about their future and students would know that ATME is having best Infrastructure in the city.

Date	03-12-2022	Session	01
Session Topic	Orientation on Electrical Engineering Science Stream (EEE)		
Resource Persons	1. Dr. Parthasarathy L. (HoD. – EEE Dept.) 2. Mrs. Sowmyashree K S. (Asst. Prof. – EEE Dept.) 3. Dr. Sathish K R. (Asst. Prof. – EEE Dept.)		

The department of Electrical and Electronics Engineering had an orientation on December 3, 2022, at 9:30 am. Dr. Parthasarathy L, Professor & Head, Department of EEE, addressed the students and gave the students an overview of the Electrical stream, and the role of engineers in society. The presentation was then followed by Mrs. Sowmyashree K S., Assistant Professor, who covered the department's vision and mission, undergraduate programs, achievements, information about the faculty, the curriculum offered, professional societies, departmental placements, and courses offered by the EEE Department providing a brief summary of the course ESC I/II. Dr. Sathish K R, Assistant Professor, began the presentation regarding the Emerging Technology courses offered by the department by providing a brief summary of the course, its applications in the various fields, and how they actually function in practice. Three elective subjects will be introduced in ESC I/II, ETC I/II, and PLC I/II.

Date	03-12-2022	Session	02
Session Topic for C Cycle		UHV Session	

Universal human values are principles that are held in high regard by people around the world. Some of these values include respect for one another, kindness, honesty, tolerance, and fairness. These values are essential for creating a peaceful and harmonious society.

Respect is one of the most important universal human values. Respect means treating other people with dignity and understanding. It involves showing compassion towards others and listening to their opinions without judgment. Respect also means respecting other people's beliefs, cultures, and lifestyles.

Kindness is another important value that is shared across cultures. It involves being considerate of others and treating them with care and compassion. Kindness can be expressed in many forms, such as offering help or showing appreciation for someone's hard work.

Date	03-12-2022	Session	02
Session Topic for P Cycle		Bridge Course- Mathematics	

A Bridge Course in Mathematics is a course designed to help learners acquire the skills needed to succeed in higher level Mathematics classes. It covers topics such as algebra, geometry, trigonometry, and calculus which are typically taught in high school and college level Math courses. The course is specifically designed to help learners who may have had difficulty learning Math in the past or may be lacking in foundational knowledge to better understand the material and be successful. Bridge Courses are offered at a variety of institutions and can be taken in person or online, making them accessible for a wide range of learners. The course helps learners develop a strong foundation of Math skills that can be applied to their future studies.

This was done by the staff of Mathematics department of our college to give information and also brush up the basic knowledge of Mathematics formulas and important methods that are useful in their respective department mathematics course.

PHOTO GALLERY

Date	03-12-2022	Session	03
Session Topic for P Cycle	Orientation on Humanities & English Proficiency		
Resource Person	Prof. Bharathi R. (Lecturer)		

Prof. Bharathi was invited to give information to the P Cycle students about the subjects which comes under Humanities and the syllabus of the same. And speaker was requested to give information on English Proficiency.

This orientation introduces students to the fundamentals of Humanities and English proficiency. It is designed to provide students with the necessary skills to succeed in their studies. The orientation will cover topics such as reading comprehension, writing and grammar, critical thinking, and research methods. Additionally, students will have the opportunity to explore different literary genres, cultural perspectives, and language conventions. By the end of the orientation, students should have a better understanding of Humanities and English proficiency and be equipped with the tools necessary for success in their future studies.

PHOTO GALLERY

Date	03-12-2022	Session	03
Session Topic for P Cycle	Awareness on Library and Its Facilities		
Resource Person	Mrs. Priya R. (Librarian)		

Mrs. Priya R, Librarian was invited to give a session and brief about the facilities of our college Library for P Cycle students. She explained that Library is a place to learn, explore and discover knowledge. It is an important part of any educational institution and its facilities should be used to the fullest. Awareness on Library and its Facilities will help students to make the most out of these resources. Awareness on library and its facilities means knowing how to use the resources available in the library, finding the right materials, understanding how to use the library catalogs and databases, and taking advantage of library services such as interlibrary loan.

Students should take time to get familiar with the library layout and its services. They can take a tour of the library or ask for help from the librarians. Once familiar with the library, students can start looking for resources using different search tools such as online catalogs, databases, indexes, etc.

Apart from helping students find resources easily, librarians also provide other kinds of assistance such as research guidance, reference services, and instruction classes which can help them develop their research skills. Library can be a great resource for students if they are aware of its facilities and how to use it properly. With proper knowledge and guidance from librarians, students can make full use of this valuable resource.

Session Topic for C Cycle	Local Area Visit		
Location of Visit	Somanathapura		

C Cycle students were taken to Somanathapura as a Local area visit to Somanathapura which located 25 km from the college. Located in the Mysore district of Karnataka, Somanathapura is an important historical site. An important center of pilgrimage during the Hoysala Empire in the 12th century, the temple complex of Somanathapura is home to one of the most well preserved Hoysala temples, Chennakesava Temple.

The temple complex consists of three shrines. The main shrine is dedicated to Lord Vishnu in his incarnation as Chenna Keshava. The other two shrines are dedicated to Lord Shiva and Lord Brahma. The temple is built using soapstone and is intricately carved with mythical figures, gods, goddesses and animals. This makes it a must-see for any visitor.

The temple complex is a popular spot for tourists who come to explore its rich history, culture and architecture. Visitors can take part in several activities such as visiting temples, exploring ruins, going on guided tours of the complex and taking pictures of the stunning architecture.

Date	05-12-2022	Session	01
Session Topic	Orientation on Computer Science Engineering Stream		
Resource Person	Dr. J V Gorabal. (Professor – CSE Dept.)		

The department of Computer Science and Engineering had an orientation on December 5, 2022, at 9:30 am. Dr. J V Gorabal, Professor, Department of CSE, addressed the students and gave the students an overview of the Computer science stream, and the role of engineers in society. He also covered the department's vision and mission, undergraduate programs, achievements, information about the faculty, the curriculum offered, professional societies, departmental placements, and courses offered by the CSE Department providing a brief summary of the course ESC I/II. Also Explained about the CSE programs (Data Science, Artificial Intelligence and Machine Learning and Design) which are offered in the college. The scope and market existence for the same was also discussed in the same forum.

Date	05-12-2022	Session	02
Session Topic for C Cycle	Orientation on Humanities & English Proficiency		
Resource Person	Prof. Bharathi R. (Lecturer)		

Prof. Bharathi was invited to give information to the C Cycle students about the subjects which comes under Humanities and the syllabus of the same. And speaker was requested to give information on English Proficiency.

This orientation introduces students to the fundamentals of Humanities and English proficiency. It is designed to provide students with the necessary skills to succeed in their studies. The orientation will cover topics such as reading comprehension, writing and grammar, critical thinking, and research methods. Additionally, students will have the opportunity to explore different literary genres, cultural perspectives, and language conventions. By the end of the orientation, students should have a better understanding of Humanities and English proficiency and be equipped with the tools necessary for success in their future studies.

Date	03-12-2022	Session	03
Session Topic for C Cycle	Awareness on Library and Its Facilities		
Resource Person	Mrs. Priya R. (Librarian)		

Mrs. Priya R, Librarian was invited to give a session and brief about the facilities of our college Library for C Cycle students. She explained that Library is a place to learn, explore and discover knowledge. It is an important part of any educational institution and its facilities should be used to the fullest. Awareness on Library and its Facilities will help students to make the most out of these resources.

Awareness on library and its facilities means knowing how to use the resources available in the library, finding the right materials, understanding how to use the library catalogs and databases, and taking advantage of library services such as interlibrary loan. Students should take time to get familiar with the library layout and its services. Once familiar with the library, students can start looking for resources using different search tools such as online catalogs, databases, indexes, etc.

Apart from helping students find resources easily, librarians also provide other kinds of assistance such as research guidance, reference services, and instruction classes which can help them develop their research skills. Library can be a great resource for students if they are aware of its facilities and how to use it properly. With proper knowledge and guidance from librarians, students can make full use of this valuable resource.

Session Topic for P Cycle		UHV Session	

Universal human values are principles that are held in high regard by people around the world. Some of these values include respect for one another, kindness, honesty, tolerance, and fairness. These values are essential for creating a peaceful and harmonious society.

Respect is one of the most important universal human values. Respect means treating other people with dignity and understanding. It involves showing compassion towards others and listening to their opinions without judgment. Respect also means respecting other people's beliefs, cultures, and lifestyles.

Kindness is another important value that is shared across cultures. It involves being considerate of others and treating them with care and compassion. Kindness can be expressed in many forms, such as offering help or showing appreciation for someone's hard work.

Session Topic for C Cycle		Bridge Course- Mathematics	

A Bridge Course in Mathematics is a course designed to help learners acquire the skills needed to succeed in higher level Mathematics classes. It covers topics such as algebra, geometry, trigonometry, and calculus which are typically taught in high school and college level Math courses. The course is specifically designed to help learners who may have had difficulty learning Math in the past or may be lacking in foundational knowledge to better understand the material and be successful. Bridge Courses are offered at a variety of institutions and can be taken in person or online, making them accessible for a wide range of learners. The course helps learners develop a strong foundation of Math skills that can be applied to their future studies.

This was done by the staff of Mathematics department of our college to give information and also brush up the basic knowledge of Mathematics formulas and important methods that are useful in their respective department mathematics course.

Session Topic for C Cycle		Bridge Course- Mathematics	

A Bridge Course in Mathematics is a course designed to help learners acquire the skills needed to succeed in higher level Mathematics classes. It covers topics such as algebra, geometry, trigonometry, and calculus which are typically taught in high school and college level Math courses. The course is specifically designed to help learners who may have had difficulty learning Math in the past or may be lacking in foundational knowledge to better understand the material and be successful. Bridge Courses are offered at a variety of institutions and can be taken in person or online, making them accessible for a wide range of learners. The course helps learners develop a strong foundation of Math skills that can be applied to their future studies.

This was done by the staff of Mathematics department of our college to give information and also brush up the basic knowledge of Mathematics formulas and important methods that are useful in their respective department mathematics course.

Date	06-12-2022	Session	02
Session Topic for P Cycle	YOGA		
Resource Persons	Team from Sri Patanjali Yoga Shikshana Samiti		

Sri Pathanjali Yoga Shikshana Samithi in Mysore is one of the leading businesses in the Yoga Classes. Also known for Yoga Classes, Yoga Centres and much more.

Yoga is a set of physical, mental, and spiritual exercises. Yoga is said to have originated in ancient India. It seeks to calm and discipline the mind. These days, a lot of people are becoming more and more conscious of their lifestyle and food habits. Yoga Classes in MYSORE help people to learn yoga and slowly introduce it as a daily habit in their lives. Yoga is beneficial for achieving a healthy mind and body. And the team of Sri Pathanjali Yoga Shikshana Samithi is doing these for the people of Mysore.

For keeping stress at bay and to enable the students to tolerate the potential stress associated with life, ATME college of engineering organized a yoga session which is mandatory for all the students of **P cycle**. It helps them to maintain harmony of body and spirit. It also increases attention span, improves memory and sharpens the focus of the students. It is also prolific for stress reduction, and emotional wellness.

Mostly college students have more difficulties during their academic paths. The biggest challenge to student success is time management, balancing priorities, health conditions, social problems, relationships, sleep difficulties and depression. In fact, yoga means not only doing exercise, but helps to awareness expansion, improves intelligence and natural ability is improved.

A piece of yoga practice every day will definitely make student community gain more physical strength and get rid of all physical difficulties and diseases. Mental strength gained in yoga helps students to fight against inconsistencies with increasing self-confidence which looks as more powerful. Yoga can empower in the following four ways like Physical Health Empowerment, Emotional Empowerment, Mental Health Empowerment and Spiritual Empowerment. These can be achieved by yoga practices like Yogasana, Pranayama and Meditation. This helps students to begin again their sense of joy, spirit combination and communal kinship.

Date	07-12-2022	Session	01
Session Topic	Orientation on Civil Engineering Stream		
Resource Persons	1. Prof. Manu Vijay. (HoD – CV Dept.) 2. Dr. Suneeth Kumar S M. (Prof. – CV Dept.)		

On December 7, 2022, at 9:30 am, there was an orientation event from the department of CIVIL Engineering. H.L. Manuvijay, HOD of CE, addressed the group by introducing the department to the students. then he continued the presentation by discussing the department's vision and mission, UG programmes, milestones, faculty information, curriculum provided, professional society, and departmental placements.

Dr. Suneeth kumar, Professor of CE, opened the presentation about the courses in the Civil department by giving a quick overview of the course, its applications in the various areas, and how they work in reality. When introducing three elective subjects in ESC I/II, ETC I/II, and PLC I/II, it was also stated how opting this courses in CIVIL would benefit students in their respective fields and in the long run as they built their careers.

It's was overall nice

The session was very useful to me

The speaker should interact with the students more.

Improve sound quality

No suggestions.

It was really valuable to us and to help us to gain the knowledge

Helpfull

It was effective. There is no suggestion.

Class was very informative for me..there is no any suggestion from my side

Little bet faster

Excellent

It was soo useful

To be some friends and make us some active
Thank you

Please teach in kannada also

Nothing everything was good

NO

Not to my knowledge sir.!

The session was really good

The program was super on this day

Nothing, Everything was good

Sir plz do some jocks in between the session

No suggestion it was good information about our career importance how to make our thinking still more 🧠

Ntg as such

Nothing as else

nothing

Include much information

The branch was Different ,make sure how that impact to other branches

Helpful

Valedictory program was organized to thank each Yoga teacher who came all the way to our college. Dr. SACHIDANANDAMURTHY K L was present at the occasion and thanked the trainers and Mr. Devaraj M R was also thanked for organizing this useful session.

Date	07-12-2022	Session	02
Session Topic for P Cycle		UHV Session	

Universal human values are principles that are held in high regard by people around the world. Some of these values include respect for one another, kindness, honesty, tolerance, and fairness. These values are essential for creating a peaceful and harmonious society.

Respect is one of the most important universal human values. Respect means treating other people with dignity and understanding. It involves showing compassion towards others and listening to their opinions without judgment. Respect also means respecting other people's beliefs, cultures, and lifestyles.

TRUTH: Those seeking to live practically according to Truth, will do their best to be honest with themselves and with others, and will be true to their word. They will seek to develop their intuition, together with a sense of enquiry, open-mindedness, detachment and fearlessness; and will seek to discriminate between right and wrong by diligently listening to their conscience. They will cultivate the feeling of being connected to everything and everybody, remembering that what we do to others, we do to ourselves.

Date	07-12-2022	Session	03
Session Topic	Career Guidance and Placement Cell		
Resource Persons	Dr. Deepu R. (Head – CGP Cell)		

Most students get into engineering without knowing what they like or what they want to do after B.E. The Department of CGP at ATMECE creates awareness among all students and has a unique way of counselling every student and knowing their strengths and guiding them along different career opportunities ahead. Following Image shows different career options for engineering graduates.

It is a dream for most students to become an engineer. Most students get into engineering without knowing what they like or what they want to do after B.E, which is why India has a huge number of B.E graduates. Career, is one which motivates anyone to do anything. Students and their parents dream about their career and in many places, fail sometimes due to lack of proper guidance. The Department of CGP assists every student and their parents from Day1 of their entry to college on the path towards their career, giving awareness about career options that everyone has. Most students think only about placements after their graduation as their career.

After completing the B.E program, candidates can either pursue higher studies (one popular exam that they can give for this is GATE) or consider pursuing a **job after B.Tech** in the field of their choice. Although M.Tech is a natural course choice after completing a B.E program, these days many students opt to take up MBA courses after completing their B. E degree program. Other options that aspirants can consider include picking up a job at a PSU (Public Sector Undertaking), taking the Civil Services entrance exam, or joining a private company.

An engineering graduate can reach his dream career if guided properly from the beginning. Department does not push everyone blindly towards placements or any specific target. Rather, we provide knowledge about all the possible destinations for everyone. During the induction program in the first year, we show them all the avenues they have ahead and seek their choice. If any student wishes to change their paths after some time, there is an option. But, we want everyone to be specific about their career so that they are highly focused and attain success. Following are the different paths for an engineering student.

We guide every student through counselling and conduct a lot of events related to their choice of career such as seminars, webinars, workshops etc on Higher studies, entrepreneurship, steps for succeeding civil service exams, directing them towards additional certifications from reputed universities and industries.

Every graduate is expected to possess 3 qualities. Knowledge that he/she acquires during their 4 years of study during the course. Skills, which they need to acquire through internships, projects & certifications. Attitude, that represents them to outside world. Though, not in syllabus, we have our own road map for every student who joins ATMECE, Mysore to reach his/her career. In that, we train every student on communication skills, soft skills & aptitude at different levels. These are important irrespective of paths students choose.

Date	07-12-2022	Session	03
Session Topic	Awareness on A-IMS		
Resource Persons	Mr. Kiran B. (A-IMS Coordinator & Asst. Prof – CSE)		

ATME College of Engineering has been using A-IMS solutions for the smooth process of all activities in the college, this solution is a fully ready to implement online **web-based and mobile based** end-to-end solution for the complete management of colleges and schools. The application **integrates all the activities** of the college such that the data is shared in real time between all stakeholders.

The solution starts from the identification and classification of students till the time the student becomes an Alumni of the university/college/school including the entire student management, fee management, affiliation management, certificate management, faculty management, attendance management, Grievance Redressal System, Hall ticket management, USN generation, lesson planning, schema management, mentoring system, sharing of Knowledge Library/database, Alumni management, evaluation of colleges & students, etc.

Date	08-12-2022	Session	01
Session Topic	Orientation on Electrical Engineering Science Stream (ECE)		
Resource Persons	1. Dr. P K Mahesh. (HoD - ECE Dept.) 2. Mr. Girish M. (Asst. Prof. - ECE Dept.) 3. Mrs. Shalini Hanok. (Asst. Prof. - ECE Dept.)		

On December 8, 2022, at 9:30 am, there was an orientation event for the department of electronics and communication engineering. Dr. Mahesh P. K., HOD of ECE, addressed the group by introducing the department to the students. Mr. Girish M., Assistant Professor then continued the presentation by discussing the department's vision and mission, UG programs, milestones, faculty information, curriculum provided, professional society, and departmental placements.

Mrs. Shalini Hanok, Assistant professor, opened the presentation about the courses in the ECE department by giving a quick overview of the course, its applications in the various areas, and how they work in reality. When introducing three elective subjects in ESC I/II, ETC I/II, and PLC I/II, it was also stated how taking courses in electronics and communication would benefit students in their respective fields and in the long run as they built their careers.

Too long

Mic quality should be improved

Overall, it was a good session.

Nothing ,because it was understandable .

Sir we kindly request you to extend the time for choosing subject to Sunday as some students don't have thier student ID and have many confusions

No suggestion overall induction program was good and informative about all the courses
I heart fully thank.. one and all, you have given us information about all the courses, facility's, rules etc,.. it was very great work

This is not a suggestion it's a request that please change the college timings, because of there is no bus to our village after 5 O clock ,today also bus was gone before I going to stop and finally someone drop me so please as possible change the college timings.

N/A

Sir plz do some jocks in between the session

Want brief explanation about the topic

Session was good. I have understood the topic

Nice session

No regrets for opting EC 😊

No suggestions.

it's too long

Useful

.

Please stop taking too long sessions as it becomes difficult to sit in the same place up to 1 or 2 hours and most likely we need sessions that include more interactions with the speaker and students but here in our college only speaker keeps talking until all the students get distracted. I would like to tell that the speaker has to catch everyone's attention and not make the session too boring by only filled with speeches, like I meant to say that including some funny talks in between the sessions might help students refresh and listen to the speaker. Thank you.

audio quality must be taken care

Nothing to suggest sir. At least not to my knowledge

Date	08-12-2022	Session	02
Session Topic for C Cycle		UHV Session	

Universal human values are principles that are held in high regard by people around the world. Some of these values include respect for one another, kindness, honesty, tolerance, and fairness. These values are essential for creating a peaceful and harmonious society.

Respect is one of the most important universal human values. Respect means treating other people with dignity and understanding. It involves showing compassion towards others and listening to their opinions without judgment. Respect also means respecting other people's beliefs, cultures, and lifestyles.

PEACE: In its practical application, those seeking to be in Peace, will practice self-discipline, patience, tolerance, and non-attachment. They will look before speaking and acting; avoid or neutralize anger; place limits on satisfying their desires; learn to still themselves for reflection and prayer; try to love and serve all; and strive always to be true to their conscience. They will aim to regard all events as auspicious; develop humility; smile in times of difficulty; and cultivate optimism. They will remind themselves that Peace is to be found within and not outside oneself.

Date	08-12-2022	Session	02
Session Topic for P Cycle		Bridge Course- Mathematics	

A Bridge Course in Mathematics is a course designed to help learners acquire the skills needed to succeed in higher level Mathematics classes. It covers topics such as algebra, geometry, trigonometry, and calculus which are typically taught in high school and college level Math courses. The course is specifically designed to help learners who may have had difficulty learning Math in the past or may be lacking in foundational knowledge to better understand the material and be successful. Bridge Courses are offered at a variety of institutions and can be taken in person or online, making them accessible for a wide range of learners. The course helps learners develop a strong foundation of Math skills that can be applied to their future studies.

This was done by the staff of Mathematics department of our college to give information and also brush up the basic knowledge of Mathematics formulas and important methods that are useful in their respective department mathematics course.

Date	08-12-2022	Session	03
Session Topic	Awareness on Extensional Activity		
Resource Persons	1. Mr. Rudresh A N. (Asst. Prof. – CV Dept.) 2. Mr. Hemanth B R. (Asst. Prof. -ME Dept.) 3. Mr. Ravishankar H S. (Asst. Prof. -CHE Dept.)		

The students were briefed about the extensional activities and encouraged to involve in the social responsibility activities. The Speaker mentioned about the requirement for the involvement of students in the social connected responsibility that the students must take to understand about the problems faced by society or neighborhood community. Students were informed about societal various activities that will be carried out by the institution in association with NSS.

The students were informed about the Vision of the institution which includes social responsibility as one of the main parameters. Along with this student were notified that the annual fest of the institution is based on the responsibility towards the societal problems which leads to holistic development of the students towards societal activities.

P Cycle students were addressed by Mr. Rudresh A N, NSS Coordinator and Assistant Professor of Civil Department. C cycle students were addressed by Mr. Hemanth B R Assistant Professor of Mechanical Engineering department and Mr. Ravishankar H S, Assistant Professor of Chemistry Department.

Date	08-12-2022	Session	03
Session Topic	Discrimination Against Women		
Resource Persons	Smt. Manjula Patil , Child Development Project Officer, Mysuru		

The Women Cell and College Internal Complaint Committee (CICC), ATME College of Engineering (ATMECE), Mysuru in association withal India Women Conference (AIWC) jointly had organized a ‘**An Awareness talk on Discrimination Against Women in Workplace**’ in view of observing “**Discrimination Against Women Pakhwada**”, on 8th Dec 2022 at 03:00PM. The resource person were Dr. Yogamala H L, HoD (i/c), School of Maritime Management, Indian Maritime University, Kochi Campus, and Mrs. Kuljit kaur, Honourable Secretary General, AIWC, New Delhi.

With lots of examples, she explained POCSO Act, Dowry Prohibition Act, Cruelty on Women- IPC 498a, and Discrimination on Women at Workplace. She narrated some of the major leading cases like Vysaka case. She spoke about how frequently child marriages are happening nowadays and it is our responsibility to avoid such marriages. She urged to provide equal opportunity among the all-women gender. Still, now many families are having inequality between their children but now it is available only in laws and bylaws about women’s equality. To get their rights women can question and fight for their rights.

Date	09-12-2022	Session	01
Session Topic	IBM Recruiters presentation on SkillsBuild		
Resource Person	Anusha Tyagi. (EDUSAT)		

Anusha Tyagi was invited by Dr. Deepu R, Head of Career Guidance and Placement Cell and handed over the session to the resource person. She explained that IBM SkillsBuild offers free learning, support, and resources to foster STEM and new-collar skills from secondary education (students aged 13-18) to entry-level employment.

The pace of digital acceleration and the demand for core technical and professional skills continues to intensify. At IBM, we believe that learners at all stages of the employment continuum need access to the skills that will allow them to compete in an ever-evolving economy.

IBM has been committed to closing the gap for students, job seekers, and the organizations that support them through our programs and platforms for decades. IBM SkillsBuild brings together two world-class platforms under one brand to help students, job seekers, and organizations opt into the learning experience that's right for them.

Educators can access easy-to-implement resources that enable their schools and organizations to support student career planning and exploration with minimal training. And educators can connect their classrooms with IBMers and other career professionals to enhance students' industry exposure.

The IBM Data Science Professional Certificate program is a great way to prepare for a career in data science. But its biggest advantage is that you pay just a margin of the cost compared to traditional education. With 10 skill-building courses designed by IBM, you get the most value for what you pay for.

Great for the resume, as IBM is a well-respected company. My coworkers have left for great tech companies and top 5 business schools. Good benefits (but getting worse). Hard to get recognition for good work.

She also assisted our students to register for the program and also gave a demo on how to complete training sessions and download the course completion certificate from the website.

Session Topic for P Cycle		UHV	

Universal human values are principles that are held in high regard by people around the world. Some of these values include respect for one another, kindness, honesty, tolerance, and fairness. These values are essential for creating a peaceful and harmonious society.

Respect is one of the most important universal human values. Respect means treating other people with dignity and understanding. It involves showing compassion towards others and listening to their opinions without judgment. Respect also means respecting other people's beliefs, cultures, and lifestyles.

NON-VIOLENCE: The two essential components of Non-Violence are understanding and love, understanding the Oneness of all creation nurtures care in our thoughts, words and deeds. The key to curbing violence is minimising ego-centred desires. Recognising our kinship with all of Nature, we hold to the supreme maxim: "Help ever, Hurt never".

Practical meaning: Those trying to practise Non-Violence will try to avoid expressing anger, resentment, envy, jealousy and bitterness, instead, doing their best to cultivate Love and Peace. They will cultivate gentleness, kindness and friendliness with all; having sympathy for the pain and difficulties of others, and so being unwilling to hurt or insult others in thought, word and action.

The primacy of Love can be understood a little more by referring to the following loose formulation:

Love + Thought = Truth.

Love + Action = Right Conduct.

Love + Feeling = Peace.

Love + Understanding = Non-Violence

Date	09-12-2022	Session	03
Session Topic	Mental Health and Counseling		
Resource Person	Mrs. Rakshitha Ravindranath. (Counselor)		

Mrs. Rakshitha Ravindranath started the session by explaining that the Mental health awareness is the ongoing effort to reduce the stigma around mental illness and mental health conditions by sharing our personal experiences. Often, because of misconceptions about mental health and mental fitness, people often suffer in silence and their conditions go untreated.

Mental health includes our emotional, psychological, and social well-being. It affects how we think, feel, and act. It also helps determine how we handle stress, relate to others, and make healthy choices. Mental health is important at every stage of life, from childhood and adolescence through adulthood.

Further she also added about counseling importance and requirements for individuals. Counselling is a form of 'talk therapy'. It is a process where an individual, couple or family meet with a trained professional counsellor to talk about issues and problems that they are facing in their lives. Professional counselling is confidential and non-judgmental. She also informed students that she will be available in college and any student can meet her if required.

Date	09-12-2022	Session	03
Session Topic		Talent Hunt and Cultural Program	

Cultural programs play a major part in a student's life. By taking part in the programs, right from an early age, children come to know about the rich culture and traditions being followed which also develops their interpersonal skills. In this regard Senior students were involved to identify the talent of the new students and encourage them to perform on the stage without any fear. At the end of the day Second year, third year and first year students performed on the auditorium stage.

After the program valedictory program was done and thanked all the Management, Principal, Deans, Various department Heads, coordinators and students for successful completion of the program.

It is very useful to us

No

The induction program was good

Very helpful 🤔👍

It's helpful

It's a good session and it's give more information about over course

It's really helps us.

It was a good knowledge based program and a good experience.

Useful

It was effective.

Gud

Thank you

It was helpful

Average

Nothing as a suggestion, but as a feedback it helped me to learn about the engineering.

Valuable and knowledge gainable

It was a very useful program

Informative sessions

I got some new ideas and it was valuable

Good suggestion

It was informative and well organised

Over all good out of 5 it is 4

Program was organised well

It was very useful

Held one more Induction programme

Its very Good

Knowledgeable

Very helpful

I didn't attend the program.

It's good

Nice and interactive

HAD A NICE EXPERIENCE

Recommended

.....

Induction programme as most beautiful or wonderful moments on a my life..

NYC

It's was good orientation program but classes during its was a negative point I guess other than that it was good experience:-)

It is use full

Helpful sessions

Helpful

Better 👍

Helpfull

Good experience

Noñe

Its very helpful has thanks for all of ATME family ❤️

Overall the session was very effective and gained much knowledge

It was very helpful thank you for ATME team....😊

Understanding

It was helpful.

Its like a super man class

It very understandable class
